

Introducing Institutional Crypto Trading

powered by DLT Finance and SDX Web3

SDX and DLT Finance Partner to Offer End-to-End Crypto Trading and Custody for Institutional Clients

SDX, a leading crypto service and infrastructure provider, part of SIX Group, announces a collaboration with DLT Finance, a BaFin-licensed trading and brokerage firm, to expand their institutional crypto services. In this collaboration, SDX will assume the roles of custodian and staking provider, while DLT Finance's subsidiary DLT Securities GmbH will serve as trading counterparty with integrated post-trade.

The joint offering marks a significant step toward expanding crypto trading and custody services for institutional clients and meets the evolving needs of institutional investors who seek to access crypto markets in a fully regulated, secure and reliable environment.

Crypto Custody – offered by SDX Web3

As an integral part of the SIX Group, we possess world-leading expertise in custody, safekeeping, and asset services. Our institutional-grade infrastructure ensures top-tier service while addressing security concerns, under the consolidated supervision of FINMA.

Crypto Trading – offered by DLT Finance

DLT Finance, as a BaFin-regulated financial institution, seamlessly provides extensive liquidity and a wide selection of digital assets. By leveraging regulated brokerage infrastructure, financial institutions can confidently navigate the dynamic crypto markets.

Crypto Staking – offered by SDX Web3

SDX Web3 non-custodial staking is a technology infrastructure solution allowing businesses to participate in secure, efficient, and cost-effective Ethereum non-custodial staking.

Secure your Crypto Assets with SDX Web3 and Focus on your Business Growth

Discover SDX Web3: Your Trusted Crypto Custody Solution

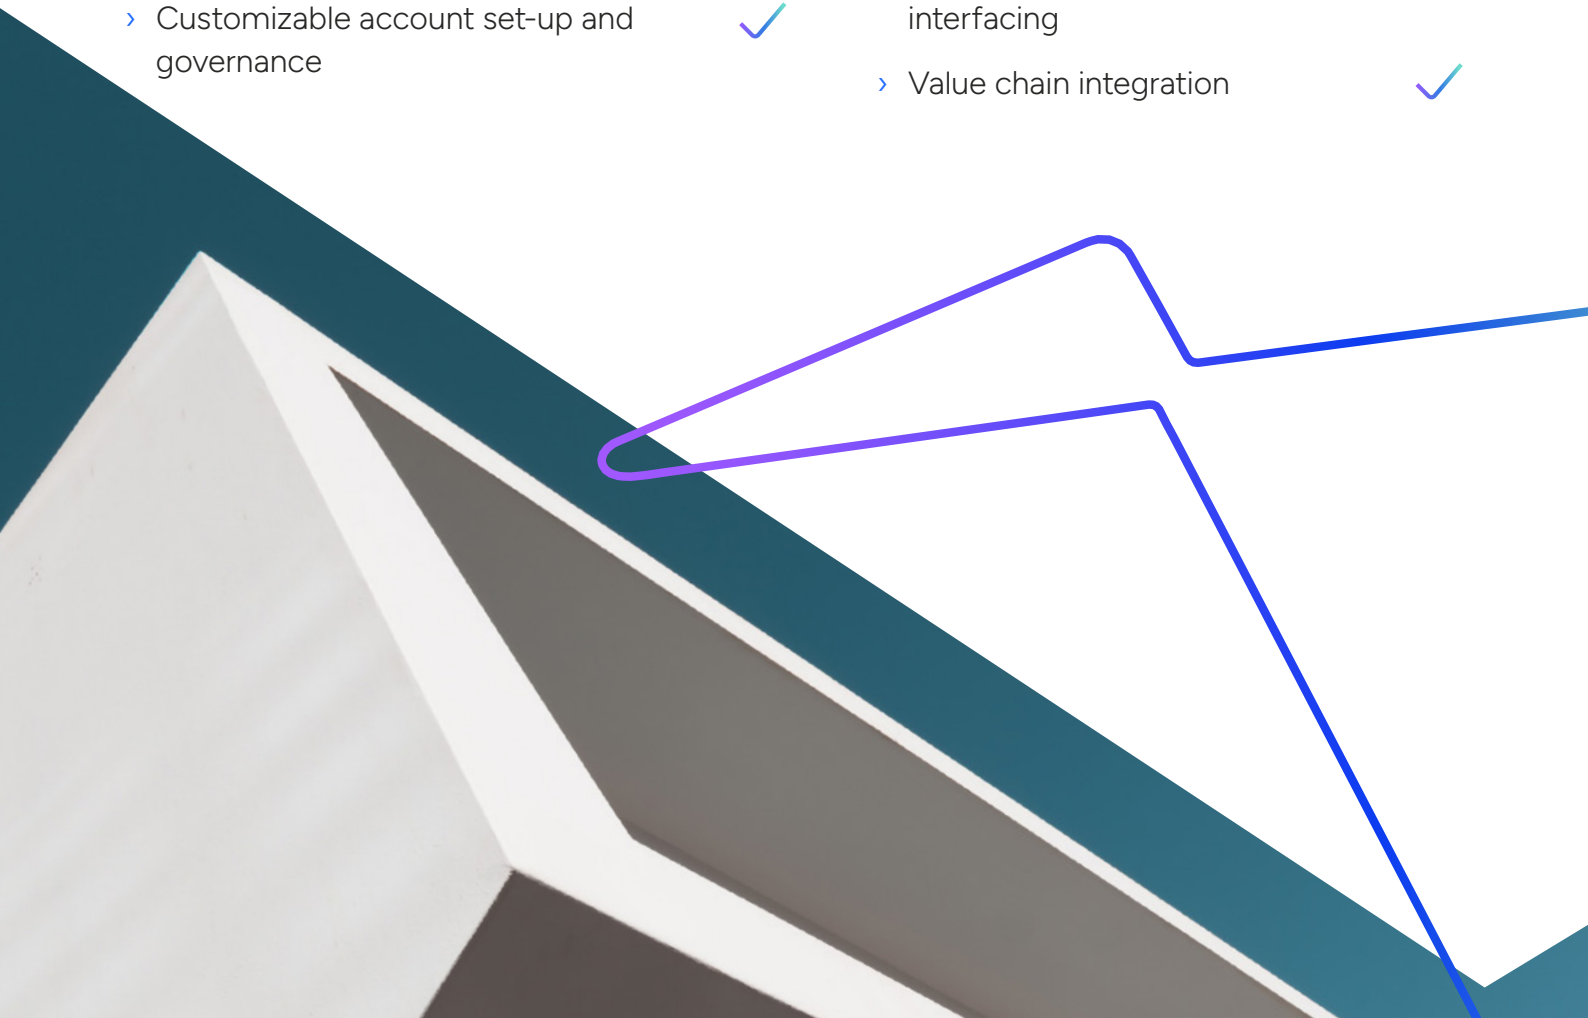

Our comprehensive custody services address the challenges of institutional clients and provide unparalleled security, transparency and peace of mind. We operate in Switzerland, adhering to local and international regulations and banking requirements for your peace of mind. We are a trusted and experienced infrastructure provider, allowing you to focus on your core business and better serve your clients' needs.

Key Features

We offer advanced measures to prevent loss and theft, along with fully AML-compliant processes, as integral components of our services. Custody and management of crypto assets with SDX is as straightforward as handling any financial asset. Integration into your environment is simplified through automated reporting using ISO Swift standards and API connectivity. Clients can also access cutting-edge services designed for traditional assets, such as collateral management and profit from post trade / settlement services.

Why Choose SDX?

- › Comprehensive security at FMI-level ✓
- › Independently audited and ISAE 3402 certified ✓
- › Customizable account set-up and governance ✓
- › Hot and cold storage options ✓
- › Full regulatory compliance ✓
- › Effortless management and interfacing ✓
- › Value chain integration ✓

Seamless Liquidity Access by DLT Finance

Trading

Expand your trading horizons with our diverse range of options. Gain direct market access to leading digital asset exchanges, allowing you to execute orders swiftly and capitalize on favorable market conditions. Alternatively, take advantage of RFQ (Request for Quote) functionality, enabling you to engage in negotiated transactions and achieve optimal pricing for your trades.

Multi-Exchange Access

The platform seamlessly integrates with a network of reputable exchanges and leading liquidity providers, providing you with extensive liquidity and a wide selection of digital assets to choose from. By leveraging our robust connections, you can confidently navigate the dynamic crypto market, executing trades efficiently and maximizing your potential returns.

Multi-Level Accounting, Governance and Custom Reporting

Streamline your financial operations with an advanced multi-level accounting system. Tailor user roles and permissions to match your institution's unique requirements, enabling efficient collaboration and control across different teams and departments. Customizable reporting capabilities provide valuable insights into your transactions, settlements, and more, empowering you to make informed decisions easily.

Unlock the Full Potential of Your Crypto With SDX Web3

Discover SDX Staking

SDX Web3 is an integral part of the SIX Group and leverages high quality and mature services from both SIX Group and SDX. SDX Web3 non-custodial staking is a technology infrastructure solution allowing businesses to participate in secure, efficient, and cost-effective Ethereum non-custodial staking. The service is designed for institutional clients who need to scale their Ethereum staking capability.

Key Features

With a user-friendly and intuitive interface, SDX Web3 Staking makes it easy for businesses to participate in staking by eliminating the need for complex technical skills. Holders of ETH, the native token of Ethereum, can stake their ETH and participate in securing the network by locking up ETH in exchange for rewards. We understand the importance of customer protection, a clear governance framework, and regulatory obligations in the digital asset space.
